Coffey County Has Additional COVID-19 Case

Coffey County Health Department is reporting a new case of COVID-19 in a female minor in northern Coffey County. The case is in isolation and close contacts have been notified by the Coffey County Health Department. The close contacts of the case, those within six feet for 10 minutes or more, are being placed in quarantine for 14 days. Coffey County currently has 2 active cases.

Local school officials in proximity to the newest case have made decisions to cancel school activities for the upcoming week. These decisions were made prior to the disease investigation and do not reflect the guidance of Coffey County Health Department.

Coffey County Health Department advises everyone to adhere to strict hand hygiene, practice social distancing, and to stay home while sick. The State of Kansas advises residents to wear face masks when social distancing is not possible.
